

CHOOSING THE HONOREE

The honoree need not have great wealth, prestige or high social standing. He/She might well be from the humblest walk of life, a hitherto undistinguished marcher in the passing parade. One of the most satisfying aspects of the Book of Golden Deeds is its recognition of sacrifices and unselfish services of persons who otherwise would remain unheralded.

The person to be honored might come from the ranks of highly dedicated people in almost every profession; teachers, physicians, nurses, clergymen etc. A winner might be found among those widows and hard pressed widowers who manage to raise decent, God-fearing, good American families despite poverty and adversity. Also worthy of recognition are many honest, unselfish, progressive public office holders and devoted civil servants. Some who deserve acclaim yet rarely receive it are the tireless volunteers in the health and welfare organizations, civic planners, youth leaders, and philanthropists.

The honor need not be confined to individuals; golden deeds are often the result of teamwork. Civic bodies, charitable organizations, fund-raising groups aiding worth-while causes might be worthy of recognition.

Book of Golden Deed Recipients
